

High Head

The SPP Autoprime range is a proven, versatile and comprehensive product range suitable for use in a variety of applications worldwide.

The Autoprime is primarily sold to rental organisations, contractors, utility companies, open cast mines and municipalities providing a durable solution to all your needs.

The Autoprime range of HH and XH High Head pumps offer excellent performance with solids handling capability and hard wearing materials. The comprehensive range offers a pump for most applications.

The High Head range covers five models from the unique Q-Series style 3" (80mm) acoustic unit through to 6" (150mm) units with head capability up to about 650ft (200m). All units are mechanically sealed and are available with either mechanical priming or electrical SPP SmartPrime.

Typical Applications:

- Ground water control
- Mine dewatering
- Wellpoint dewatering
- Industrial sludge pumping
- Tank sediment cleaning
- Flood relief
- Emergency service pumping
- Pipe relining
- Marine ballasting
- Pressure boosting
- Temporary fire cover

Plus many more

High Head and Extra Head Pump Range Chart

Key Features and Benefits:

- Low emission coalescer
- Fuel savings with SmartPrime electric priming (PE)
- Minimal moving parts in the priming system
- Leak free mechanical sealing
- Customer choice of the latest emission compliant engines
- High interchangeability of parts
- Heavy duty shaft and bearings
- High efficiency pump hydraulics
- Heavy duty and durable vacuum pump
- Reduced maintenance
- Excellent flow and head performance
- Excellent solids handling capability
- Quality design and parts offering durability
- Comprehensive range from 3" (80mm) to extra high head 6" (150mm)
- Proven technology

Assessed to ISO 9001:2000
Certificate No. 111
